BALLOON LOOKBOOK

THE DETAILS

PICKUPS- Any order may be picked up at either of our locations - Please come prepared - ensure you have enough room in vehicle and that the balloons will not be stored in your car, or exposed to extreme temperatures for any period of time. Pickups include a hanging kit. **NOTE:** Helium balloons will contract/expand in cold/hot temps - they will return to normal when in room temperature.

HANGING - LOC uses 3M command strips for indoor hanging and heavy duty adhesive hooks for outdoor installation on brick, stone, wood. Follow appropriate instructions for removal as to not damage surfaces.

WEATHER - If your event is scheduled outdoors - a contingency plan needs to be made by the customer. Wind, rain, snow, and excessive heat can affect balloon installations. LOC will advise accordingly for best color choices, style, and placement.

INSTALL TIME - LOC will communicate a delivery time range and ensure setup before your event begins. Please be flexible with set up times, as we have multiple time-sensitive installs per day.

TEAR DOWN - LOC does **not** return for tear down after events. We will inform you how to remove/pop balloons. Garlands may be reused after events.

RENTALS - Rentals may be returned within 3 days of event day unless otherwise discussed.

DESIGN CHANGES - Design changes may be made up to a week before scheduled event date. Any changes made within 7 days are subject to price adjustment.

MINIMUMS - Normal on-site installation minimum is \$150 - that number is subject to change based on busy season (graduation, holidays, etc.)

BOOKING - Please book with LOC as soon as possible. Our calendar fills up quickly and we would love for you to be included!

SUSTAINABILITY - LOC uses the highest quality latex balloons for our orders. Our latex balloons are made from 100% natural latex — not plastic. Our latex balloons are biodegradable, and decompose as fast as an oak leaf in your backyard. Latex balloons come from rubber trees. Latex is collected by cutting the tree's bark, then catching the latex in a cup. Latex harvesting doesn't hurt the tree! Latex balloons are Earth-friendly, rubber trees grow in rain forests. Latex harvesting discourages deforestation because latex-producing trees are left intact. A tree can produce latex for up to 40 years.

Balloons are, by nature, temporary items. Some balloons will occasionally deflate sooner than expected and will also be adversely affected by wind, rain, rough handling, sunlight and other uncontrollable factors.

Once balloons are picked up - LOC is not responsible for any damage incurred by weather, kids, pets, etc. **However**, if you think a balloon may be defective, please call LOC right away so we can replace.
